EDUCATION

Kurukshetra University <i>Bachelor of Computer Application (BCA) Yamunanagar, Haryana</i>	2023 – 2026
HBSE Board <i>Intermediate (PCM with Computer Science) Jagadhri, Yamunanagar</i>	2023

TECHNICAL SKILLS

Languages & Databases: Java, Python, SQL, MySql, JDBC
Web Technologies: JavaScript (ES6+), HTML5, CSS3, Responsive Web Design
Tools & Editors: Git, GitHub, VS Code, IntelliJ IDEA, NetBeans, Sublime Text
Specializations: Object-Oriented Programming (OOPs), Data Structures & Algorithms (DSA)

PROFESSIONAL EXPERIENCE

Cognifyz Technologies <i>Software Development Intern</i>	Dec 2025 – Jan 2026
- Developed and optimized Java-based applications including a Number Guessing Game and Temperature Converter. - Engineered a File-based Task Manager to handle persistent data storage and retrieval using Java I/O classes. - Practiced clean coding principles and modular design, improving code maintainability during the internship.	

PROJECTS

SweetShop & Bakery Website	HTML5, CSS3, JavaScript
- Developed a fully responsive e-commerce interface for a local sweet shop, allowing users to browse various categories of sweets and bakery items. - Implemented a WhatsApp Integration feature that enables users to place orders directly by sending cart details to the shop owner's WhatsApp. - Optimized UI/UX with modern CSS techniques for a seamless shopping experience across mobile and desktop devices.	

ACHIEVEMENTS & ACTIVITIES

- LeetCode:** Consistently solving Data Structures & Algorithms (DSA) problems to enhance problem-solving efficiency and algorithmic thinking.
- Problem Solving:** Successfully implemented complex logic for various Java and Python mini-projects, demonstrating strong analytical skills.
- Hobbies:** Passionate about playing Cricket, applying strategic thinking and team collaboration skills.
